

ICCE Connect Webinar! – "Working together helps us all get better – the Nordic coaching community of practice"

"Alone we can do so little; together we can do so much." Helen Keller.

Learn how the Nordic countries have collaborated in their coaching development activities to improve the programs offered to their coaches, and to offer joint programs to take advantage of their different strengths.

Join representatives from Finland, Norway, Denmark, Sweden and Iceland to learn how this cooperative approach has grown and flourished, even among countries that are highly competitive among each other. Perspectives on the benefits and challenges, and ideas on developing similar cooperative models in other regions will be provided. Moderated by Kirsi Hämäläinen from the Finnish Olympic Committee.

Date: Thursday May 28th
